TO WHOM IT MAY CONCERN

It gives me immense pleasure to write this recommendation letter on behalf of Azena LLC. All my construction work has been taken care of by AZENA Company for years. I trust this company with the quality materials they use for construction and its work is always on time. I have never faced a situation where the work has been delayed or I am overcharged.

Construction is an area which requires seamless work with no interruption. AZENA LLC has always made sure that the work goes by the predefined schedule. The leadership qualities of AZENA company make them to build the best team of constructors and architects. They have a great length of knowledge and experience when they come to this field. That is the reason its clients are very confident to work with AZENA company. The experienced staff of AZENA Company will review the construction site and share their unique ideas. Their Project Manager's negotiation skills come in handy which helps him to convince the team, clients and the labor to bring life to his ideas.

What I like about AZENA LLC is its ability to find answers and create a new concept. They always have the best solutions for materials, cost, labor, location and deadlines. For all above reasons, I highly recommend AZENA LLC for service, construction works and as a supplier of products and materials.

Please let me know if you have any further questions.

Project done by AZENA LLC – Construction of the Office Building and Service Center

Sincerely yours,

Mushvig Salimoghlu

Reference Letter

I would like to express my appreciation to AZENA LLC for the quality work completed in our warehouses. After reviewing several proposals from other companies, we decided to cooperate with them, and put our concrete works and project for construction of warehouse shelves in the hands of Azena Company. The engineer staff of Azena with their Project Manager planned a meeting to our warehouse, taking time to understand our works and provided expert advice throughout the lifecycle of our project. AZENA LLC offered us the flexible schedule, pricing, and promise of a quality product we were looking for from a general contractor. After completion, we find out that constructed high-quality shelves also provide invaluable space saving inside our warehouse, due to special hook connection method.

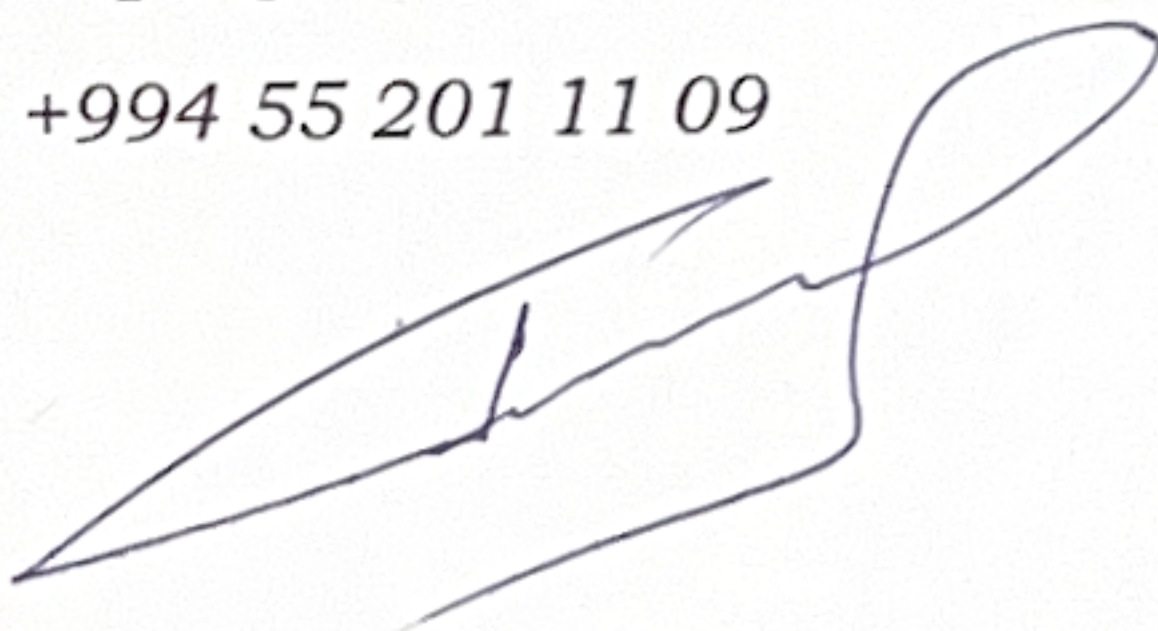

Based on my experience here, I consider AZENA LLC to be among qualified construction companies in the country, and strongly recommend their services to any member of the construction industry.

Sincerely,

Farid Aliyev

Deputy Manager

TO WHOM IT MAY CONCERN

I am writing this letter to you as a recommendation for the services provided by AZENA LLC. For the past few years I have worked hand in hand with AZENA LLC to assist us with numerous services including metal construction, materials, repair works. At no one time have they failed me, and they have always been on time, making them a reliable partner to us.

My first engagement with AZENA LLC was on a project of construction of our warehouse in Khirdalan, and all metal works in this warehouse, including warehouse racks and shelves. The company brought along good expertise so all technical details for the project would be taken into consideration and all work was finished on time.

I would like you to consider AZENA LLC for your construction and other works. I have had a good experience with them over the past few years for the services they have rendered to us. I therefore strongly recommend their services. Let me know if you have any further questions regarding AZENA LLC.

Yours Sincerely,

Mahir Hasanov
Individual Entrepreneur

A handwritten signature in blue ink, appearing to read 'Mahir Hasanov', with a long horizontal flourish extending to the right.

To whom it my concern:

I feel privileged to recommend the services of AZENA LLC, having its office at Caspian Sport Plaza, Baku, AZ1029 as one of our main suppliers, working with us from last two years for civil, mechanical, steel and electrical works for our various projects.

During the time we worked together for the Lighting Project in Swarovski Boutique in Daniz Mall, AZENA's team of engineers, supervisors and technical manpower of all grades performed the work professionally and with devotion to complete the specified project's tasks within the scheduled time and for client satisfaction. The prices are also very reasonable compared to other providers in the market. All delivered goods were of high quality, from well-known brands and with a warranty card.

The reputation of the services of AZENA LLC has grown to be quite high. There was hardly any complaint from the client. The lighting has never been interrupted because of technical reasons.

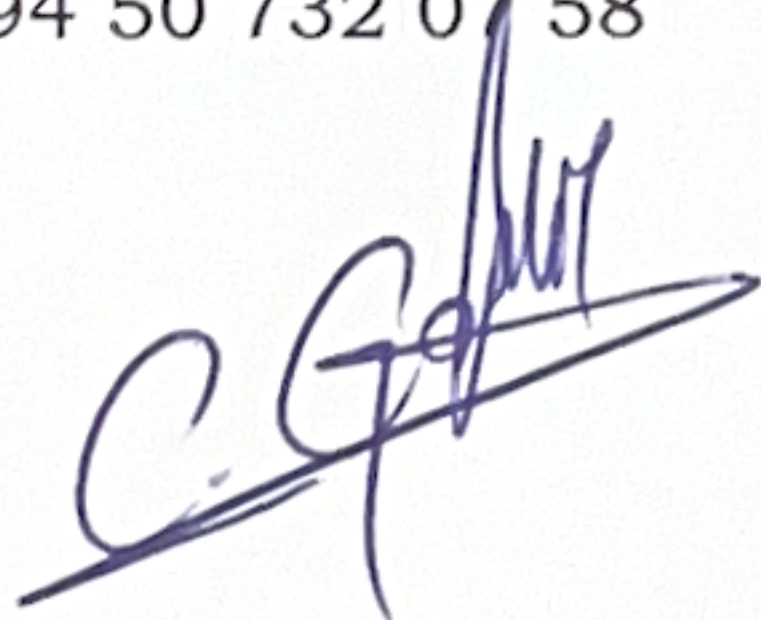

I wish them every success in their future business and would like to have such relationships with them again on our future up-coming projects. I would strongly recommend them for any multinational company who is looking for good contractors.

Sincerely,

Chaghri Coshgun
